**Advanced Analytical
Instrumentation for
Lab Applications**

www.pacip.com

Company Overview

PAC is a leading global manufacturer of advanced analytical instruments for laboratory and online process applications in the hydrocarbon processing industry.

PAC offers an extensive product portfolio with cutting-edge solutions for gas chromatography, elemental analysis, physical properties, fuels composition, and laboratory automation.

PAC complies with ISO 9001 and ISO 17025 standards, which guarantees the quality of our products and reaffirms our commitment to quality, precision and customer support.

We're an industry leader in standards development, and we work tirelessly to establish benchmark procedures that scientists and analysts around the world rely on every day to build better products and a cleaner environment.

PAC operates as a unit of Roper Technologies, Inc., a diversified technology company and a component of the S&P 500, Fortune 1000, and Russell 1000 indices.

The most respected and long-established brands of analytical equipment in one single organization

Product Lines

PAC has combined the world's most respected and long-established brands of analytical and testing equipment into a single manufacturing, marketing and service organization. Each of our brands have long histories of developing best-in-class analytical instrumentation for lab and process applications. In fact, the dynamic synergy of the PAC team and its unique technologies has led to the development of unique, cutting-edge instruments.

In close cooperation with various standards organizations throughout the world, PAC introduces innovative instruments & applications which adhere to various standards by ASTM, CEN, DIN, GPA, IP, ISO, and UOP.

Services, Support & Training

Our individualized instrument service programs help our customers ensure maximum quality and repeatability, while complying with standards and regulatory requirements.

In addition to service programs, we also offer individual services for preventative maintenance, calibration, and relocation services. Our Service Repair Centers, located around the world, are ISO-9001 accredited. All work is performed by skilled certified service technicians.

PAC offers a wide selection of training and educational programs to support our customers throughout the range of industries that our instruments serve.

Our training programs may take place in one of our PAC facilities worldwide or right at the customer's facility. We also offer webinars of some of our key technologies online.

Iris Software

Iris is an advanced, laboratory results management and reporting software system, developed by PAC, which provides customers the advantage of connecting their lab instruments, locally or worldwide, and manage them from a single computer. This greatly improves laboratory efficiency, which reduces the amount of training needed when working with multiple software platforms. In addition, IRIS can perform data reprocessing without re-running a sample, which increases laboratory productivity. IRIS is also compliant with security and quality protocols.

Certified Reference Materials

PAC offers a broad range of Certified Reference Materials (CRM), calibration standards and reference samples to support your testing needs. By routinely verifying your instrument's performance, you can ensure consistent quality that meets expected performance demands. This will help you establish good inter-laboratory correlation and generate reliable test data.

Benefits:

- Ensures dependable performance of your equipment
- Isolates testing bias before it impacts product quality
- Certified values determined through International round robin testing by a minimum of 12 labs
- Meets traceability requirements for ISO/NAMAS accreditation

Gas Chromatography Instruments Overview

AC Hi-Speed Refinery Gas Analyzer

Reformulyzer M4

Category	Full Composition Analysis								Boiling Point Distribution

Standard Methods	ASTM: D4629, D5176, D7184, DIN 51444, SO/TR 11905, GB/T 17674, UOP 936, UOP 981, UOP 971, EN 12260, SH/T 0657, GB/T 17674, SH/T 0657	ASTM: D5453, D6667, D7183, D7551, EN 17178, EN-ISO 20846, EN 15486, ISO 20729, JIS K 2541, IP 554, IP 490, UOP 989, GOST R 56866, GOST R 56342, UOP 987 Part A, SH/T 0689	See Nitrogen + Sulfur	ASTM: D4629, D5176, D7184, DIN 51444, SO/TR 11905, GB/T 17674, UOP 936, UOP 981, UOP 971, EN 12260, SH/T 0657, GB/T 17674, SH/T 0657, D5762, ASTM D5762	ASTM: D5453, D6667, D7183, D7551, EN 17178, EN-ISO 20846, EN 15486, ISO 20729, JIS K 2541, IP 554, IP 490, UOP 989, GOST R 56866, GOST R 56342, UOP 987 Part A, SH/T 0689	See Nitrogen + Sulfur + ASTM D5762

Our instruments can be customized to your specific needs.
Due to continuing product development, specifications are subject to change at any time without notice.

We are committed to delivering superior service with sales and support offices and a network of over 140 distributors worldwide.
